## Erik Ibron

Director, Solution Specialist  
Moody's Analytics  
Singapore  
+65.9118.7273  
erik.ibron@moodys.com

Erik Ibron is in the software industry for 15 years, and with Moody's Analytics for 9 years, as a Solutions Specialist for Enterprise Risk Management software. Erik covers different modules of our integrated risk and performance management suite such as Basel 3 Credit Risk, Limit monitoring, ALM, Liquidity risk and Stress Testing. Erik joined Moody's via Fermat in France, where he worked 2 years, and then relocated in 2007 in Singapore to support the growing business development of the company in the overall Asia Pacific region.

Prior to Moody's, Erik successively worked as a project manager for fighter jet built-in software in the Defense industry, and as a product manager for digital content and storage solutions aimed at the Broadcast industry.

Erik is French and holds a Master of Science degree in Paris.
