Esben Mikkelsen is an Associate Director within the Advisory Services group. He joined Moody's Analytics in 2007 responsible for implementing Moody's KMV's Economic Capital model RiskFrontier at financial institutions across EMEA and Asia. Esben since moved to the Advisory Research Team responsible for Loan Origination, Stress Testing and Custom Correlation projects and has recently taken responsibility of business development in EMEA within the Advisory Services Group. Prior to joining Moody's Analytics Esben worked as a quantitative credit analyst in the banking sector and a consultant for a database technology firm. Esben holds a M.Sc. in economics from the University of Copenhagen.
