

Fundamentals of Corporate Credit

Overview

This seminar provides participants with a solid foundation of skills that helps them reach sound, reliable judgments of company creditworthiness. Applying a structured framework. Delegates will be able to identify and assess key qualitative and quantitative factors in determining credit risk.

Learning Objectives

Upon completion of this seminar, delegates will be able to:

- » apply a structured framework to the credit analysis process
- » assess the role of management in the financial performance of a company
- » Understand financial statements, their structure and composition, and basic accounting concepts and principles
- » calculate and interpret key ratios used to evaluate the repayment prospects of a company
- » determine cash movement dynamics and ascertain their importance in the analysis process
- » summarize the key risks associated with a borrower and communicate them effectively

Who Should Attend

The seminar is aimed at all those who would like to acquire a solid foundation of credit risk analysis skills, and/or those who simply need a "refresher" of their existing skills. Delegates could come from a broad range of backgrounds, such as:

- » Commercial credit analysts
- » Commercial lenders, loan officers, relationship managers
- » Fixed income professionals
- » Investors
- » Other financial professionals

Program Level

Program Level: Basic
