WHY MOODY'S ANALYTICS?

For more than 40 years, Moody's Analytics has set the industry benchmark in financial services education, elevating the skills of banking and lending professionals worldwide.

Harnessing Moody's century-long risk management expertise and our insights into banking and finance best practices, we are the training partner of choice for financial institutions seeking to build a competitive and risk-aware workforce.

We offer a robust curriculum of high-impact learning solutions that are flexible, scalable, and engaging, enabling you to build proficiency across your organization.

MOODY'S
ANALYTICS

© Moody's Analytics, Inc.

OUR SOLUTIONS

To help you find the courses you're looking for, we've divided this guide into five sections:

**Retail
Banking**

**Business/
SME Banking**

**Commercial/
Corporate Banking**

Compliance

ESG

Within each section you'll find courses further segmented as:

Business acumen solutions, which build a person's understanding of fundamental business concepts, like how a bank operates. People with strong business acumen better understand business issues, adapt more readily during times of change, and provide quality insight as to how to achieve business goals.

Technical skills solutions, which teach people how to perform the key activities associated with their jobs. People with strong technical skills make faster, more accurate decisions and maximize the value of their organization's tools and technology.

Relationship skills solutions, which teach people how to prospect, sell, negotiate, and build rapport with clients and internal partners. People with strong relationship skills build loyal, long-term relationships and help shape a culture of collaboration at their organization.

Leadership skills solutions, which build a person's coaching and management skills. People with strong leadership skills promote a culture of learning and growth, provide meaningful feedback, and motivate employees to succeed. Strong leaders are key to retaining and attracting employees in an era of heightened competition for talent.

DELIVERY MODALITIES

Because different organizations have different needs, we deliver solutions in a variety of ways. Some are delivered in traditional formats; others using approaches and innovations that we have designed ourselves to provide targeted training and maximize results. As you review our offerings, you will see they are available via one or more of the following formats.

eLearning

Our on-demand, mobile-friendly eLearning courses cover foundational to advanced topics. Core features include intermittent Knowledge Check questions, integrated case studies and real-world examples, and downloadable job aids. Many of our technical skills courses also include access to our unique Email a Mentor feature, which provides participants with direct access to our subject matter experts.

V/ILT

During our virtual or in-person instructor-led sessions, participants build skills and knowledge around foundational to advanced topics. All instructors are experts in their subject matter area, able to delve deeply into the content and share what they have learned from a wealth of real-world experience.

Coach

Coach is an innovative, online diagnostic that immerses participants in real-world lending scenarios in order to assess their performance and decision-making abilities. Using artificial intelligence, it diagnoses the root cause of errors and provides learners with immediate access to targeted online training.

Skills Application Labs

Skills application labs allow participants to apply the knowledge they've gained through our eLearning courses as they evaluate banking and lending opportunities brought to life via comprehensive case studies. Facilitated by our expert instructors, they include small- and large-group activities, intensive skill practices, and robust feedback.

Mentoring Toolkits

Mentoring Toolkits are a turnkey solution that managers and coaches can use to strengthen and sustain the skills and knowledge participants develop through our eLearning courses. Mentoring Toolkits include module-by-module coaching plans and a PowerPoint slide deck, complete with teaching notes.

RETAIL BANKING

Business Acumen

Foundations of Banking

Provides an overview of the banking industry and examines how a bank earns money and manages risks.

All retail banking staff

Reviews the critical issues surrounding counterparty credit risk and other risks associated with over-the-counter derivative contracts.

- Relationship managers
- Investment bankers
- Commercial bankers
- Credit analysts
- Regulators and central bankers
- Fixed income professionals
- Correspondent banking officers

Covenants and Documentation

Teaches participants how to review credit documentation and identify potential pitfalls.

- Investment bankers
- Commercial bankers
- Underwriters
- Fixed income professionals
- Loan administrators
- Syndication desks
- Structured finance investors

Credit Masterclass

Intermediate-level, comprehensive course that covers single-obligor analysis, loan decisioning, loan monitoring, problem loan management, debt restructuring, and workouts.

- Relationship managers
- Loan officers
- Risk managers
- Investment bankers
- Fixed income professionals
- Bond researchers

Credit Reasoning and Writing

Teaches participants how to prepare clear, complete credit approval documents that succinctly describe the financial institution's credit risk exposure.

- All commercial/corporate banking staff involved in the development of credit approval documents

Distressed Market Series: Commercial Real Estate

Reviews the risks inherent in real estate loan transactions, guides participants through cash flow and coverage analyses, and highlights issues of valuation in a distressed market so they can explore the best solutions to manage and mitigate risk.

- All commercial/corporate banking staff involved in the commercial real estate lending process

Evaluating Liquidity Risk

Provides an overview of some of the problems companies face when market conditions deteriorate and some of the actions they may need to take to protect their liquidity position.

- Credit analysts
- Equity analysts
- Investment and commercial bankers
- Fixed income professionals
- Portfolio/asset/fund managers
- Merger and acquisition professionals
- Ratings advisors
- Banking supervisors
- Basel II project managers

Financial Accounting for Lenders

Explores the components of a complete set of financial statements, examines the ways in which a business's operating cycle is represented in its financial statements, and explains how to use the statement of cash flows—as well as cash-tracing techniques—to identify cash sources and uses as a basis for cash flow analysis.

- Lenders
- Analysts and underwriters

Financial Accounting Fraud Risk

Introduces participants to the methods a client may use to manipulate their financial statements and the steps a lender can take to detect and respond to potential fraud

- Lenders
- Relationship managers
- Analysts and underwriters

- Issuers of tax-exempt securities

Fundamentals of Corporate Credit

Introduces core corporate credit analysis techniques, including business risk, financial risk, and group structure risk analysis.

- Lenders
- Relationship managers
- Risk managers
- Asset managers
- Fixed income professionals
- Bond researchers

High-Yield Bond Covenants: A Practical Approach

Explores the key covenants used in high-yield bond documentation.

- High-yield fund managers
- Bond analysts
- Investment banking advisors
- Leveraged finance lenders

Integrated Analysis and Decision-Making

Introduces a systematic process for holistically assessing financial, industry, business, and management data and risk factors to arrive at a well-reasoned loan decision.

- Lenders
- Relationship managers
- Analysts and underwriters

Fundamentals of Bank Risk Analysis

Introduces a framework for analyzing bank credit risk using the publicly available credit rating methodology of Moody's Investors Service.

- Investment and commercial bankers
- Credit and equity analysts
- Regulators and central bankers
- Fixed income professionals
- Bond researchers
- Corporate treasurers
- Correspondent banking officers
- Relationship managers involved in exposures to, or investments in, banks

High-Yield and Leveraged Finance Credit Analysis

Reviews the basics of high-yield debt and provides an overview of current issues in this area of securities.

- Credit analysts
- Equity analysts
- Investment and commercial bankers
- Fixed income professionals
- Portfolio/asset/fund managers
- Merger and acquisition professionals
- Ratings advisors
- Banking supervisors
- Basel II project managers

Insurance Credit Analysis

Shows participants the framework and tools necessary to analyze the credit risk of insurance companies, using the publicly available rating methodology of Moody's Investors Service.

- Investors with exposures to, or who deal with, life or non-life insurance companies
- Insurance company executives
- Investment and commercial bankers
- Credit analysts
- Regulators
- Fixed income professionals
- Bond analysts

Introduction to Public Finance

Introduces a contextual framework for understanding U.S. public finance and provides tools for analyzing key public finance credits.

-  Investment and commercial bankers
-  Credit and equity analysts
-  Regulators and central bankers
-  Fixed income professionals
-  Bond researchers
-  Corporate treasurers
-  Correspondent banking officers
-  Relationship managers involved in exposure to, or with investments in, banks

Loan Documentation

Prepares participants to evidence U.S. business and consumer loan transactions by collecting the appropriate documentation and properly executing subordination and security agreements. *Note: This course is designed for U.S.-based participants.*

-  Lenders
-  Relationship managers
-  Analysts and underwriters

Problem Credits: Early Warning Signs and Restructuring

Uses a real-world case study to track the phases of financial distress, restructuring, and bankruptcy for a complex loan. Participants create a plan of action to address troubled situations and maximize recovery.

-  Bankers
-  Bondholders
-  Analysts and underwriters
-  Private placement investors
-  Bond researchers
-  Corporate treasurers
-  Correspondent banking officers
-  Relationship managers

Problem Loans

Teaches participants how to identify, monitor, manage, and resolve distressed loans to reduce organizational losses.

-  Lenders
-  Relationship managers
-  Analysts and underwriters

Problem Loans: Commercial and SME Banking

Teaches participants how to identify clients at risk, evaluate their unique circumstances and needs, apply the financial institution's risk appetite and policies, limit defaults, and mitigate losses.

-  Lenders
-  Relationship managers
-  Analysts and underwriters
-  Portfolio managers
-  Business analysts

Profitability and Credit Risk

Examines how to mitigate risks and several types of exposures on a bank's books in terms of capital, risk, and expected loss.

-  Lenders
-  Relationship managers
-  Analysts and underwriters

Sovereign Risk Analysis

Covers the publicly available credit rating methodologies of Moody's Investors Service for a structured approach to assess sovereign and country risks in mature and developing markets.

-  Sovereign, regional, and local credit analysts
-  Commercial credit analysts
-  Commercial lenders and loan officers
-  Relationship managers
-  Fixed income professionals
-  Investors

Project Finance Masterclass

Teaches participants how to assess project feasibility, conduct financial analyses, structure investments, and review key provisions of documentation.

-  Investment and commercial bankers
-  Credit analysts
-  Fixed income analysts
-  Sponsors, contractors, and investors
-  Government agencies

COMMERCIAL/CORPORATE BANKING

Technical Skills
