WHY MOODY'S ANALYTICS?

For more than 40 years, Moody's Analytics has set the industry benchmark in financial services education, elevating the skills of banking and lending professionals worldwide.

Harnessing Moody's century-long risk management expertise and our insights into banking and finance best practices, we are the training partner of choice for financial institutions seeking to build a competitive and risk-aware workforce.

We offer a robust curriculum of high-impact learning solutions that are flexible, scalable, and engaging, enabling you to build proficiency across your organization.

© Moody's Analytics, Inc.

OUR SOLUTIONS

To help you find the courses you're looking for, we've divided this guide into five sections:

Retail	Business/	Commercial/	Compliance	ESG
Banking	SME Banking	Corporate Banking	Compliance	E30

Within each section you'll find courses further segmented as:

Business acumen solutions, which build a person's understanding of fundamental business concepts, like how a bank operates. People with strong business acumen better understand business issues, adapt more readily during times of change, and provide quality insight as to how to achieve business goals.

Technical skills solutions, which teach people how to perform the key activities associated with their jobs. People with strong technical skills make faster, more accurate decisions and maximize the value of their organization's tools and technology.

Relationship skills solutions, which teach people how to prospect, sell, negotiate, and build rapport with clients and internal partners. People with strong relationship skills build loyal, long-term relationships and help shape a culture of collaboration at their organization.

Leadership skills solutions, which build a person's coaching and management skills. People with strong leadership skills promote a culture of learning and growth, provide meaningful feedback, and motivate employees to succeed. Strong leaders are key to retaining and attracting employees in an era of heightened competition for talent.

DELIVERY MODALITIES

Because different organizations have different needs, we deliver solutions in a variety of ways. Some are delivered in traditional formats; others using approaches and innovations that we have designed ourselves to provide targeted training and maximize results. As you review our offerings, you will see they are available via one or more of the following formats.

eLearning

Our on-demand, mobile-friendly eLearning courses cover foundational to advanced topics. Core features include intermittent Knowledge Check questions, integrated case studies and real-world examples, and downloadable job aids. Many of our technical skills courses also include access to our unique Email a Mentor feature, which provides participants with direct access to our subject matter experts.

V/ILT

During our virtual or in-person instructor-led sessions, participants build skills and knowledge around foundational to advanced topics. All instructors are experts in their subject matter area, able to delve deeply into the content and share what they have learned from a wealth of real-world experience.

Skills Application Labs

Skills application labs allow participants to apply the knowledge they've gained through our eLearning courses as they evaluate banking and lending opportunities brought to life via comprehensive case studies. Facilitated by our expert instructors, they include small- and large-group activities, intensive skill practices, and robust feedback.

Coach

Coach is an innovative, online diagnostic that immerses participants in real-world lending scenarios in order to assess their performance and decision-making abilities. Using artificial intelligence, it diagnoses the root cause of errors and provides learners with immediate access to targeted online training.

Mentoring Toolkits

Mentoring Toolkits are a turnkey solution that managers and coaches can use to strengthen and sustain the skills and knowledge participants develop through our eLearning courses. Mentoring Toolkits include module-by-module coaching plans and a PowerPoint slide deck, complete with teaching notes.
