

An intelligent financial spreading software solution that uses advanced machine learning technology coupled with an intuitive user interface to accelerate time to decision on even the most complex financial documents—without sacrificing accuracy.

QUICK - Receive processed spreads in minutes for use in underwriting. Automatically spread from a variety of sources to standard or custom templates and send data into the Creditlens™ solution for further analysis.

ACCURATE - Our cutting-edge AI has been trained and tested with our unique access to enormous amounts of data so we can provide you with a smoother process and up to 95%* accuracy

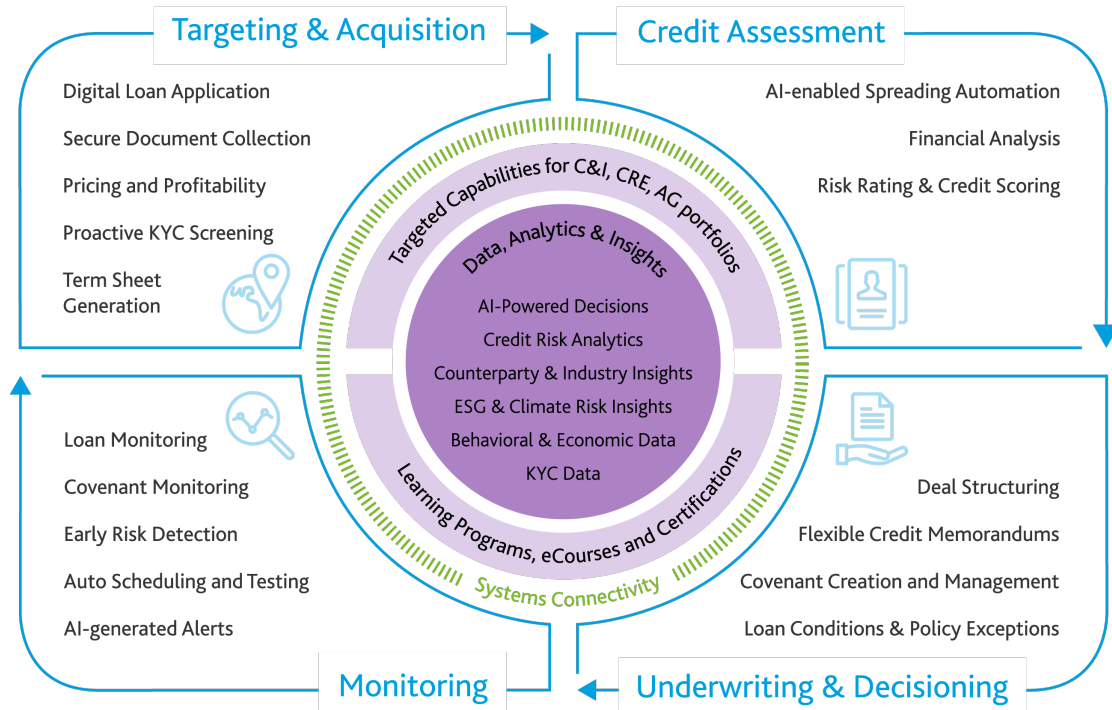

EASY - An intuitive and responsive UI guides you through the solution while providing recommendations on spreading actions.

SCALABLE - No matter how many statements your credit analysts can handle, our AI can handle more. QUIQspread can process large amounts of data in a matter of minutes exponentially increasing your spreading bandwidth and freeing up your workforce for more strategic initiatives.

*Standard templates

QUIQspread is our AI-enabled spreading tool within the Credit Assessment workflow of our Lending Suite. Our award-winning Lending Suite consists of standalone but interoperable SaaS solutions designed to help you make confident credit decisions and effectively manage your loan portfolio.
