London, 1 December 2015 – Moody's Analytics, a leader in risk measurement and management, today announced that it has been recognized for Best Economic Scenario Generation Software and Best Solvency II Solution in Insurance Risk Magazine's 2015 Awards. The awards cited Moody's Analytics Economic Scenario Generation Solutions and Moody's Analytics RiskIntegrity™ Suite for their innovative approaches to addressing the insurance industry's risk management challenges.

"We're delighted that our Scenario Generation Solutions and RiskIntegrity Suite were recognized by Insurance Risk for their strength in addressing insurers' risk management needs," said Colin Holmes, Managing Director at Moody's Analytics. "Our approach of combining software, modeling and configuration in a comprehensive package provides insurers with effective solutions for risk, capital and solvency management, regulatory reporting and financial modeling."

Insurance Risk recognized Moody's Analytics Scenario Generation Solutions as the Best Economic Scenario Generation Software, confirming Moody's Analytics long standing market leadership and commitment to innovation. Moody's Analytics Economic Scenario Generation Solutions are widely used in the global insurance industry to support a range of risk management needs, liability valuation, capital calculation and asset-liability management. The solutions bring a unique combination of enterprise software, calibration services and expert support.

In addition, for the second year running, Insurance Risk recognized Moody's Analytics RiskIntegrity Suite as the Best Solvency II Solution. The RiskIntegrity Suite offers a comprehensive, configurable and modular solution for the calculation of capital requirements, risk aggregation and regulatory reporting. It supports firms in a range of sizes, from small businesses to large multinational enterprises.

Moody's Analytics has received numerous awards for its risk management solutions. For a complete list, visit [www.moodys.com/awards](http://www.moodys.com/awards). For more information on Moody's Analytics solutions, visit [www.moodysanalytics.com](http://www.moodysanalytics.com).
