Moody's Analytics and Management Solutions announce collaboration as part of Moody's Analytics PartnerAlliance program

London, March 6, 2017 - Moody's Analytics, the leading global provider of risk management solutions, and Management Solutions, a leading management consultancy firm in regulated industries, are pleased to announce their new strategic collaboration as part of the Moody's Analytics PartnerAlliance program.

Through this partnership, Moody's Analytics will provide clients of both firms with its award-winning regulatory compliance solutions, which Management Solutions will complement with its advisory, integration and customer support services. As part of the agreement, which covers collaborative efforts between the firms in EMEA, the US, and Latin America, Management Solutions will also support the implementation of Moody's Analytics solutions.

"Management Solutions brings valuable expertise to many of our customers," said Steve Tulenko, Executive Director, Enterprise Risk Solutions at Moody's Analytics. "Management Solutions' capabilities complement those of Moody's Analytics, with local implementation and advisory services that ensure our shared clients get the most out of our solutions."

Rafael Guerra, Global Head of Risks and Capital at Management Solutions, was equally confident about the partnership. "Our experience working with Moody's Analytics has been excellent. By bringing together our firms' expertise, technology and customer care, we bring real value to customers in our direct markets."

The partnership involves building a center of expertise around Moody's Analytics solutions at Management Solutions. The alliance is non-exclusive and both companies remain independent to work with other parties where that is in the best interest of our customers.

About Management Solutions

Management Solutions is an international consulting firm focused on the provision of business, financial, risk, organizational, technology and process-related advisory services. Our mission is to create value propositions for our clients and commit to effective implementation; we help the leading companies in their respective markets to turn their business management goals into tangible results. Our main goal is to exceed our clients' expectations and become their trusted partners. Our

differentiating factor lies in our in-depth knowledge of the businesses in which our clients operate. Further information is available at www.managementsolutions.com.

About Moody's Analytics

Moody's Analytics helps capital markets and risk management professionals worldwide respond to an evolving marketplace with confidence. The company offers unique tools and best practices for measuring and managing risk through expertise and experience in credit analysis, economic research, and financial risk management. By providing leading-edge software, advisory services, and research, including the proprietary analysis of Moody's Investors Service, Moody's Analytics integrates and customizes its offerings to address specific business challenges. Moody's Analytics is a subsidiary of Moody's Corporation (NYSE: MCO), which reported revenue of \$3.6 billion in 2016, employs approximately 10,600 people worldwide and maintains a presence in 36 countries. Further information is available at moodyanalytics.com.
