Moody's Analytics named CLO Data Provider of the Year

New York, May 25, 2017 – Moody's Analytics announced today that it won CLO Data Provider of the Year at the GlobalCapital US Securitization Awards. The awards dinner took place on May 23 at the Plaza Hotel in New York.

Award winners are selected by the readers of *GlobalCapital*, which compiled the nominee shortlist using industry nominations, their own research, and peer review. This year's ballot, which shortlisted Moody's Analytics, Intex, and Bloomberg, received the most votes in the award's history.

"We're honored to receive this award recognizing the breadth and high quality of our CLO data," said Luis Amador, Managing Director-Structured Products and Advisory Services at Moody's Analytics. "Our structured finance data incorporates real-time and historical metrics, supports all asset classes globally, and powers the Moody's Analytics Structured Finance Portal, our advanced analytics engine for market participants."

Backed by one of the world's largest databases of structured finance content, the Moody's Analytics Structured Finance Portal gives clients a comprehensive view of the CLO universe. Through its advanced comparative analytics, customizable benchmarks, and an easy-to-use interface, the Structured Finance Portal lets clients instantly gain insight into their portfolios, deals, managers, and a host of regulatory-based metrics, so they can make informed decisions.

The Moody's Analytics CLO Data Feed contains detailed information on the performance of CLO tranches and their underlying loans. Along with the Structured Finance Portal, it is part of the Moody's Analytics solution for investors in securitizations. Moody's Analytics also offers ABS System, a solution for issuers of structured products.

"Having a complete view of your structured finance portfolio is more important than ever," said Kevin Dougherty, US publisher of *GlobalCapital*. "Being named CLO Data Provider of the Year is a testament to how the securitization industry values the Moody's Analytics offering. *GlobalCapital* is delighted to honor the outstanding performance of Moody's Analytics."
