Moody's Analytics wins Technology Vendor of the Year in Risk Awards

NEW YORK, December 6, 2017 – Moody's Analytics has been named Technology Vendor of the Year in the 2018 Risk Awards. This award reflects how our solutions help banking and insurance professionals around the globe leverage new technologies to work more efficiently and make smarter business decisions.

"We're honored to be named Technology Vendor of the Year by *Risk*," said Steve Tulenko, Executive Director at Moody's Analytics. "The transformation to a digitized world is both a great opportunity and a challenge for the industry. To support our customers, we have invested in building a technology stack that helps them modernize and lower their cost of ownership. Winning Technology Vendor of the Year validates our strategy and affirms the breadth and quality of our solutions."

Financial services firms are innovating to keep pace with their customers' evolving needs. Dramatic increases in data availability and computing power have enabled firms to adopt big data technologies to gain insight into their business. Many financial firms are now leveraging cloud computing, artificial intelligence, and software as a service to serve their clients as never before. Moody's Analytics solutions integrate the company's deep domain expertise with new technologies that drive innovation in our markets.

Moody's Analytics also won four categories in the Risk.net Markets Technology Awards: [Solvency II Product of the Year](#), [Economic Scenario Generation Product of the Year](#), [Regulatory Reporting Product of the Year \(Insurance\)](#), and [Stress Testing Product of the Year](#).
