Moody's Analytics Named Category Leader in Chartis IFRS 17 Report

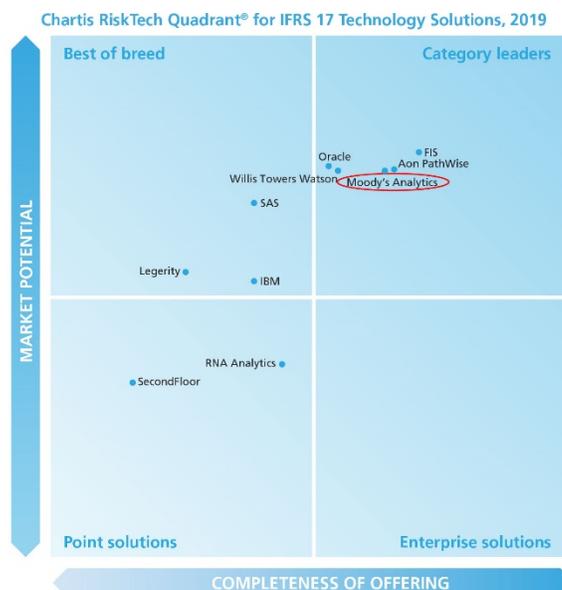

LONDON, April 29, 2019 – Moody's Analytics, a global provider of financial intelligence, has been named a Category Leader in "[IFRS 17 Technology Solutions: Market and Vendor Landscape 2019](#)", a new Chartis Research report that assesses 10 leading vendors of IFRS 17 solutions.

The report evaluates the vendors on six core capabilities. Moody's Analytics was recognized for offering "Best-in-class" capabilities in three categories (data management, reporting, and validation and model capabilities) and "Advanced" capabilities in the other three (data warehouse, insurance contract qualification, and accounting recognition).

The Moody's Analytics [RiskIntegrity™ IFRS 17](#) platform is a cloud-enabled, out-of-the-box solution that helps insurers meet the stringent new reporting requirements of the International Financial Reporting Standard (IFRS) 17 accounting standard.

Designed to support the demanding needs of actuaries, accountants, and IT professionals, the platform comes with all the capabilities required for an efficient implementation of IFRS 17. It is available as a software-as-a-service solution.

"We're thrilled that Chartis has recognized our IFRS 17 offering with the Category Leader distinction," said Christophe Burckbuchler, Head of Insurance Strategy and IFRS 17 Solutions at Moody's Analytics. "IFRS 17 presents insurers with many operational challenges, such as
