## Moody's Analytics Wins Six Risk Technology Awards

**NEW YORK, June 19, 2019** – Moody's Analytics, a global provider of financial intelligence, has won six categories in the 2019 Risk Technology Awards.

- Bank ALM System of the Year
- Credit Data Provider of the Year
- Wholesale Credit Modelling Software of the Year
- Enterprise-Wide Stress Testing Product of the Year
- IFRS 9 – ECL Modelling Solution of the Year
- IFRS 9 – Enterprise Solution of the Year

"This recognition from *Risk* is highly gratifying," said Mark Almeida, President of Moody's Analytics. "Our clients face many different challenges, which Moody's Analytics can solve with our unique combination of data, models, software, and services. These awards showcase our extensive capabilities and success in solving our clients' problems."

"We applaud Moody's Analytics for its strong showing in this year's Risk Technology Awards," said Antony Chambers, Publisher of *Risk*. "Taking the top spot in six award categories across finance, accounting, regulatory, and credit functions is an unprecedented accomplishment."

The Risk Technology Awards recognize vendors that are doing most to help the industry in the fields of ALM, credit, operational risk, and enterprise risk management. The awards are decided by a judging panel consisting of technology users and the editors of *Risk.net*.

These six wins add to our growing list of [awards and industry accolades](#).
