Moody's Analytics Wins Enterprise-Wide Stress Testing Product of the Year at Risk Technology Awards

NEW YORK, June 26, 2019 – Moody's Analytics, a global provider of financial intelligence, has won Enterprise-Wide Stress Testing Product of the Year at the 2019 Risk Technology Awards. It's one of [six](#) categories won across finance, accounting, regulatory, and credit functions.

Traditionally, stress testing exercises have required the participation of many groups within an institution and often took several months to complete. Today, banks must be able to respond to regulatory and management requests faster, while also extracting business value from the results.

Moody's Analytics helps banks overcome the challenges of stress testing. Our solutions improve data quality and integrity and make efficient use of resource and technology investments, while delivering industry-leading Moody's Analytics modeling expertise.

"Stress testing plays a critical role in how banks manage risk. Understanding the potential impacts of different scenarios leads to more informed business decisions," said Andy Frepp, General Manager at Moody's Analytics. "Our award-winning stress testing solutions allow banks to optimize their resources, data, and technology, and transform their stress testing program from a purely regulatory compliance exercise to a strategic management resource."

According to one of the judges for this year's awards, "Moody's Analytics has the broadest and deepest stress-testing capabilities."

This win adds to our growing list of [awards and industry accolades](#).
