Moody's Analytics Wins IFRS 9 Product of the Year at *Asia Risk* Awards

HONG KONG, September 20, 2019 – Moody's Analytics, a global provider of financial intelligence, has won the IFRS 9 Product of the Year category at the *Asia Risk* Awards 2019. This recognition from *Asia Risk* follows our recent wins for [IFRS 9 – ECL Modelling Solution of the Year](#) and [IFRS 9 – Enterprise Solution of the Year](#) in the 2019 *Risk* Technology Awards.

Firms of all sizes across the globe must meet the International Financial Reporting Standard (IFRS) 9 accounting standard, but each institution's IFRS 9 needs are unique. Our modular and flexible solution, which includes the [ImpairmentCalc™](#) tool and [RiskConfidence™ Impairment](#) software, helps firms meet their specific challenges. It integrates award-winning data, software, models, economic forecasts, and economic scenarios, all supported by our advisory services.

Firms can also use our [ImpairmentStudio™](#) solution to automate their IFRS 9 impairment analysis and to manage and monitor their expected credit loss clearly and concisely.

"We're honored to receive this recognition from *Asia Risk*," said Shailendra Jain, General Manager-Asia, Enterprise Risk Solutions. "Our clients are looking beyond implementation, at how they can use our IFRS 9 solution to drive better business decisions. We've improved its usability and made it more adaptable to firms' unique requirements."

This win adds to our growing list of [awards and industry accolades](#).
