Moody's Analytics Enters Top 20 of IDC FinTech Rankings

NEW YORK, October 29, 2019 – Moody's Analytics, a global provider of financial intelligence, earned the #18 spot in the 2019 IDC FinTech Rankings. This is our highest-ever position in the annual rankings, which categorize and evaluate technology providers based on revenues from financial institutions for hardware, software, and/or services.

Moody's Analytics achieved this recognition on the basis of our technology solutions that help financial firms make better, faster decisions. Among an extensive range of fintech products are these three popular cloud-based solutions:

- [CreditLens™](#): Our credit lifecycle management solution blends technology and data analytics to help firms digitally transform their credit business.
- [ImpairmentStudio™](#): This award-winning platform enables firms implementing the CECL and [IFRS 9](#) accounting standards to automate and simplify complex processes.
- [RiskIntegrity™ IFRS 17](#): Designed for actuaries, accountants, and IT professionals, this solution enables an efficient implementation of IFRS 17.

"We're proud to have earned our highest-ever spot in these rankings," said Andy Frepp, General Manager at Moody's Analytics. "This recognition follows broad adoption of our fintech solutions, which help our clients solve their most challenging problems."

This adds to our growing list of [awards and industry accolades](#).
