Moody's Analytics Launches SolvencyWatch™ Solution for Insurers' Capital Monitoring

LONDON, April 28, 2020 – Moody's Analytics, a leading provider of financial intelligence, is pleased to announce the launch of its new [SolvencyWatch](#) solution, which helps insurers efficiently monitor their key solvency metrics.

Powered by Moody's Analytics [award-winning](#) modeling capabilities, the SolvencyWatch solution provides fast valuation of an insurer's assets and liabilities. Chief risk officers can then monitor their solvency position in real time and answer "what-if" questions related to changes in the market.

"Insurers need solutions that provide senior management with timely and actionable financial analytics," said Jack Cheyne, Senior Director at Moody's Analytics. "These metrics are increasingly important in the current environment, so it's very pleasing to see customers are already using SolvencyWatch to deliver management information that can help firms navigate business through uncertain times."
