Quantum Advisory Selects RiskFirst's PFaroe™ Platform to Strengthen Investment Analysis

Quantum will use PFaroe to perform powerful asset-liability modelling and monitor pension plans' investment risk and funding levels.

LONDON, June 5, 2020 – [Quantum Advisory](#), a leading independent financial services consultancy, has selected PFaroe, the web-based pensions risk analytics platform from [RiskFirst](#), a Moody's Analytics company. The system, selected following an extensive review of the options, will support Quantum in advising clients on investment risk.

The web-based solution bolsters Quantum's own investment and actuarial modelling toolkit, in support of the efficient delivery of robust integrated risk management advice.

Amanda Burdge, Partner and Head of Investment at Quantum Advisory said: "PFaroe's capacity and flexibility fits perfectly with our goal of providing dynamic yet pragmatic advice to clients. We have always championed proactivity and are delighted to work with RiskFirst."

Matthew Seymour, CEO of RiskFirst, said: "We are extremely pleased that Quantum has chosen PFaroe to enhance its investment advice and analytics capabilities. PFaroe is a holistic, user-friendly platform encompassing all pension analytical requirements, and by leveraging its toolset, Quantum can increase the efficiency of its current operations, enabling greater focus on adding value to clients, and winning new business."

About Moody's Analytics
