RiskFirst Is Now Moody's Analytics

LONDON, September 28, 2020 – RiskFirst, a leading provider of risk analytics solutions for the asset management and pension fund communities, has rebranded to Moody's Analytics and forms the core of Enterprise Risk Solutions buy-side capabilities.

Moody's acquired RiskFirst in 2019. Combining the strengths of both organizations creates significant opportunities for growth for Moody's Analytics and furthers its commitment to the buy-side and asset owner communities.

The product suite, which includes the PFaroe™ DB, PFaroe™ Attribution, and PFaroe™ E&F solutions, will now be offered alongside other buy-side capabilities from Enterprise Risk Solutions.

"Since the acquisition was announced we have received consistently positive feedback from our customers who are excited that we can now leverage the Moody's Analytics brand—and its deep industry expertise—to bring much greater value to our customers," said Matthew Seymour, Head of Buy-side Solutions, Enterprise Risk Solutions.

"Bringing RiskFirst's award-winning solutions and extensive customer base into our organization significantly strengthens our value proposition for buy-side institutions and asset owners," said Andy Frepp, Head of Enterprise Risk Solutions at Moody's Analytics.

Find out more about our PFaroe™ product suite here.
