Agenda

1. Why financial statement quality matters
2. How we measure financial statement quality
3. Use case and conclusion

Numbers in this deck for illustration purpose only

1

Why financial statement
quality matters

Lending is getting harder

- » Alternative lenders are making decisions quickly
- » Administrative costs of lending needs to decline
- » More real time information is available
- » Information will need to be verified quickly and at low cost

2

How to assess financial
statement quality

Are this set of financial statements fake

Can we identify low quality financial statements systematically?

Balance Sheet

Inventory	950
Total current assets	950
Intangible assets	40
Total non-current assets	40
Total assets	1,000
Short term debt	1,000
Long term debt	4,000
Total liabilities	5,000
Total equity	-4,000

Income Statement

Net sales	10,000
COGS	9,000
Gross profit	1,000
SG&A expense	500
Interest expense	500
Net income	0

Clues:

- » Unbalanced accounts
- » Missing fields
- » Wacky numbers

Decision usefulness of financial statements

Decision-useful statements are high quality and provide a relevant and reliable representation of the firm's financial condition.

Low quality statements are not decision-useful. They may reflect:

- » mistakes in entering information
- » aggressive accounting
- » fraudulent manipulation of numbers

Use Cases and Conclusion

Benefit all users of financial statements

- » Commercial banks / lenders
 - Part of loan review process or internal rating system, or assessment of acquired loans
- » Bond investors / stock investors
 - Portfolio selection and early warning
- » Regulators
 - Facilitate examination process
- » Accounting and auditing firms
 - Screening and robustness check
- » M&A

Conclusion

- » We can assess financial statement quality using financial numbers
- » The tool produces a well-validated score and suspicious fields for further investigation
- » Benefits all users of financial statements
 - Not a replacement of the detailed analysis by accountants, auditors or analysts
- » Research-in-progress to produce four models
 - US private firm model will go into beta testing first
 - Plan to expand to other markets

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors. It would be reckless and inappropriate for retail investors to use MOODY'S credit ratings or publications when making an investment decision. If in doubt you should contact your financial or other professional adviser.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.
