

Moody's Analytics Bond Report is a custom report that gives a holistic view of a Security, based on information from the associated Issuer or Obligor. Used by Financial Advisors and Investors, this report works by mapping the Security to an Issuer or Obligor, providing an instant view of Moody's comprehensive research, ratings, and financial data offerings.

### Content & Features

- » **Broad Coverage:** includes Corporates, Financial Institutions, Sovereigns, US Municipals
- » **Security Information:** view a snapshot of the ratings, watch status, outlook, and sale details
- » **Issuer & Obligor Research Summary:** provides concise analysis of the drivers behind the Moody's rating and key factors that could impact the rating
- » **Ratings History:** 5 years of security ratings
- » **Key Indicators:** financial data and history that are considered drivers of the rating

### Key Benefits

- » Up-to-date and forward-looking commentary and quantitative insights from Moody's Investors Service analysts help you to stay informed
- » Flexible analysis tailored to your specific investments, based on CUSIP or ISIN
- » Robust research and data all delivered in an easy-to-use report format
