

Regional Workstation enables banks, governments, investors, and other business professionals to perform both ready-made and custom comparisons of regional market performance. Clients use the Regional Workstation to analyze strengths and weaknesses, employment trends, upside/downside risks, recent performance, key indicators, forecasts, and more.

### Perform comprehensive and customizable regional economic analytics

- » Coverage of all state and metropolitan areas through regular in-depth analysis of each area's recent economic performance and outlook.
- » Real-time economic, demographic, and financial performance updates using the most up-to-date and comprehensive historical data and forecasts.
- » Customizable dashboards, reporting, and delivery tools to meet your needs.

- » Exportable data and charts.
- » Direct access to Moody's Analytics economic research staff.

### **Benefit from comprehensive and timely economic analysis for your risk assessment and strategic planning needs**

- » Identify investment opportunities and risks by evaluating a region's growth potential and economic performance.
- » Analyze trends in housing, employment, and demographics, to develop effective marketing to key demographics.
- » Plan expansion and resource allocation to prepare for regional economic fluctuations.
- » Manage exposure to potential risks in areas with flagging labor and housing markets.
