

Shape your global business strategy and portfolio investments with our country forecasts. The World Workstation platform provides comprehensive information to identify and anticipate country-level risks through forecasts, key indicators, and interactive tools for ranking, charting, and exporting data.

Leverage forward-looking insights with our comprehensive macroeconomic forecast database

- » Coverage of more than 50 major economies that account for 93% of world GDP in purchasing power parity terms.
- » Key stats, recent performance, and 10-year country forecasts, updated monthly to reflect recent historical data and rapid changes in economic conditions.
- » High-value performance indicators updated weekly, such as exchange rates, country risk measures, and benchmarked cyclical indicators.

- » Exportable data and charts.
- » Direct access to Moody's Analytics research staff.

Benefit from detailed, monthly forecasts for 50+ countries for your strategic planning needs

- » Compare cross-country, cross-sector performance for asset allocation and sectoral lending investment decisions.
- » Anticipate world commodity consumption trends and analyze their impact on input costs.
- » Track changes to economic conditions to evaluate market opportunities and risks.
- » Evaluate portfolio investments, and identify and develop a global business strategy.

Leverage credible global economic forecasts from a trusted, expert source

World Workstation data and forecasts are produced and maintained by Moody's Analytics economists. Our economists have been recognized for forecasting accuracy by Bloomberg, MarketWatch, and Pulsenomics LLC.
