Our Capabilities

Conduct portfolio surveillance and augment your data for credit model building or regulatory needs

- Achieve asset-level transparency through detailed loan-level data for RMBS, CMBS, and CLO securitizations
- Fill data gaps when building or benchmarking credit models and methodologies using historical deal and loan level data
- Instantly retrieve summary statistics for your portfolio, including top industry and holdings exposure
- Customize your portfolio surveillance workflow using hundreds of data points across our deal, pool, loan and bond database
- Gain valuable investment insight by tracking deal performance using our customizable view and graphing functionality

Our Structured Finance data sets are comprehensive and allow for granular analysis

- Access complete pool and tranche history including monthly performance and pool data with approximately 95% of our data set available within 1-2 days of reporting
- View dozens of calculated fields such as market value metrics, modified loans, risk weighted capital and other regulatory metrics
- Access our high-quality performance and static data via web or FTP delivery
- MA Vetted Assumptions

Find out more information about Moody's Analytics award winning structured finance products and solutions.

Evaluated Pricing Solutions: Calculate end-of-day prices for structured finance securities based on various pricing recipes across global structured asset classes

Investor and Issuer Solutions: Our end-to-end solution includes 500+ enhanced metrics, a sophisticated cash flow engine, global coverage, and advanced comparative analytics

Portfolio Analytics & ALM Solutions: Access structured cash flows models and data via APIs to calculate and report assets and liabilities under various economic scenarios

Risk & Regulatory Solutions: Leverage our proprietary interest rate, economic, credit and cash flow models to calculate advanced market risk measures and to assist with your regulatory needs, such as for CCAR, DFAST, IFRS9, and CECL
