

Investment News Delivered Fast

The News you Need for Event-driven Trading Decisions

Major financial institutions trust the NewsEdge Signal solution to target the news they need with unparalleled speed. It delivers the fastest feed available to financial professionals who are serious about news-based trading strategies. Get news from the industry's most respected sources on the events that move markets: corporate actions, earnings announcements, unanticipated news – even rumors. All content is processed, standardized, indexed and delivered with near-zero latency. We apply filters specifically designed for trading and market-moving events, so you have the news you need to make your best trading decisions.

» Direct

We are a direct distributor of SEC EDGAR filings, bypassing slower vendors for the fastest access to the filings you use most.

» Fast

Our multicast protocol enables package delivery to either a single data center or multiple centers in nano seconds, providing a speed advantage where your trading algorithms live.

» Selective

Choose the delivery option that works best for your business: full stories, headline and lead paragraph only, or headline only, and combine your content with metadata as needed.

» Personalized

We provide ticker symbols and event tagging on all news, so you can customize your feed to include only the news you want to see.

Fast and Focused

The market moves fast – but the NewsEdge Signal solution is faster. In addition to getting direct feeds delivered in milliseconds, the information is tagged so you can access it quickly. View news tagged specifically for trading or choose only those tags that are important to your business. Streaming news feeds go directly into your proprietary applications, with near-zero latency. Standardized ticker, industry, and subject category codes keep up with the latest buzzwords and trends, and impact codes isolate the news impacting the markets.

Tailored Delivery

Industry-standard XML delivery means you can easily integrate the NewsEdge Signal solution into your proprietary applications. You can choose the delivery option that works best for your business: full stories, headline and lead paragraph only, or headline only, and combine your content with metadata as needed. Our push feed runs live 24 hours a day, 7 days a week, so you will never miss a beat.

Industry-Specific Content

Get direct access to news that moves markets. We provide distilled Reg FD press releases, SEC EDGAR filings, rumor wires, and more through a single standardized feed. Our content comes from the names you trust: Business Wire, Briefing.com, GlobeNewswire, PR Newswire, and more. Story text is available on alternate push channels for deeper research.
