

What We Offer:

Extensive Agency deal library covering 30,000+ deals of the universe

One-stop shop for cashflow models, data, prepayment model and analytics

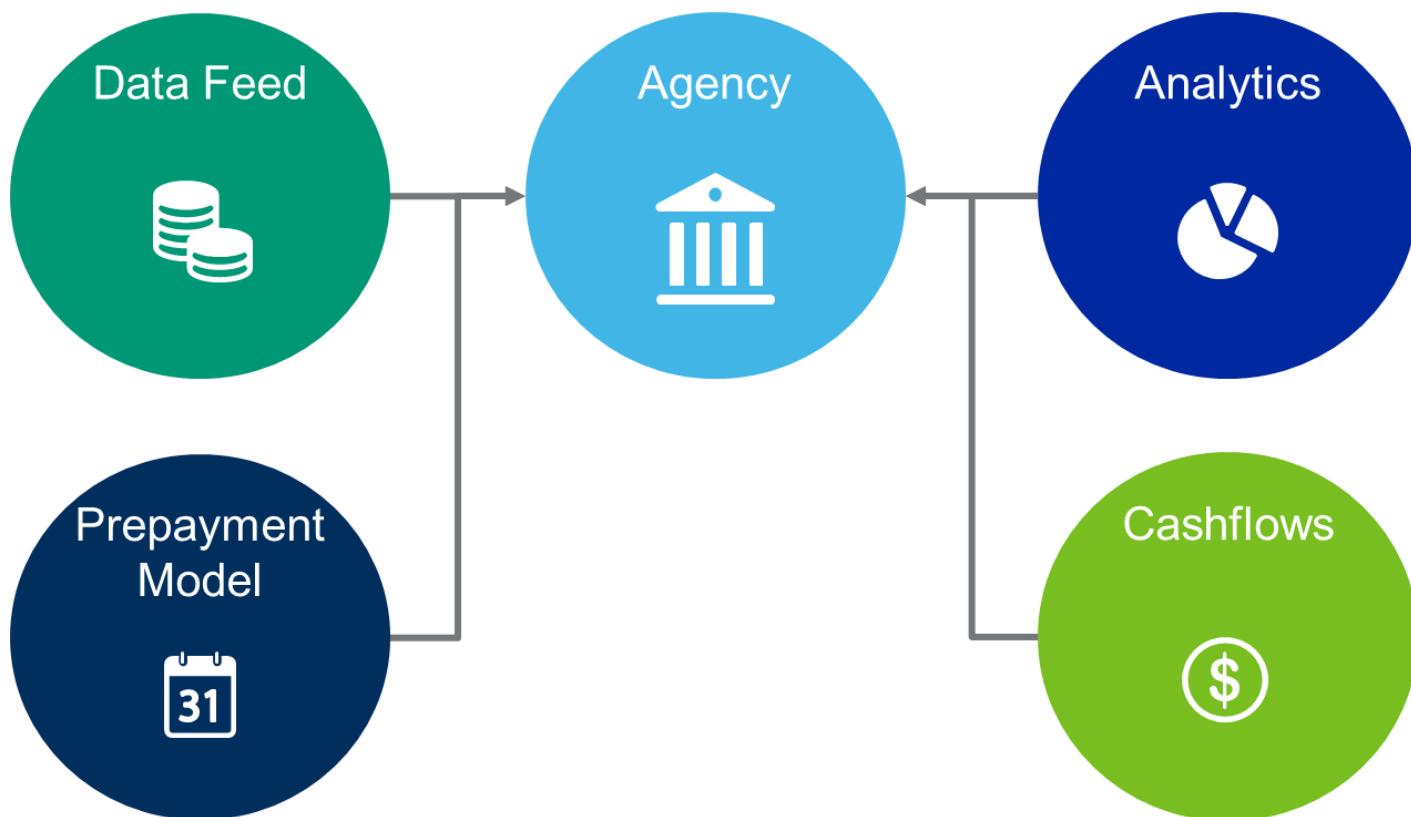

Extensive coverage on loan level and pool level data

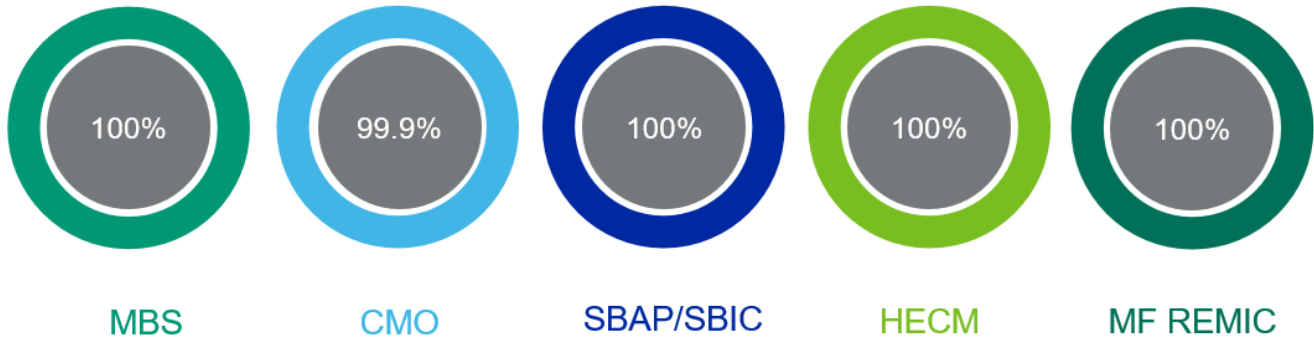

Accessible via API and Excel Add-In

Access our waterfall libraries and run up-to-date cash flow analytics with multiple scenario capability for over 31,000 CMO's and over a million MBS

Run up-to-date cash flow analytics with extensive deal coverage

- » Turnaround time for most new issuance is on the closing date
- » Deal updating typically available within 24 hours of data availability

Speed and Scalability with Moody's Analytics API

The Moody's Analytics API is able to support a wide range of demanding use cases. Our API integrations scale easily in most multi-server environments and can be implemented under various load balancing schemes. The API can be configured to run analytics using actual collateral data, or to optimize performance times by using rep-lines or aggregate pools, provided by the deal model.

Find out more information about Moody's Analytics award winning structured finance products and solutions.

-  **Evaluated Pricing Solutions:** Calculate end-of-day prices for structured finance securities based on various pricing recipes across global structured asset classes
